

THE ENVIRONMENTAL POLICY OF THE GEASAR GROUP

The environment factor is a strategic element in the corporate policy of the Geasar Group. The Geasar Group is aware that a corporate strategy aimed at reducing the environmental impact deriving from its activities is an essential commitment to participate in the safeguard of our Planet and a fundamental element for the operation of the airport, the customers' satisfaction and the protection of the territory in which the company operates.

The commitment of Geasar is to continuously improve its environmental policy in the management of the airport, minimizing, where possible, any negative impact on the environment and make every effort on organizational, operational and technological terms to prevent the pollution of water, air and soil, safeguarding biodiversity and preserving the natural environment.

The environmental policy of Geasar includes the following actions:

- Ensure that its activities are carried out with the highest ethical standards and in compliance with the current legal provisions;
- Maintain an effective Environmental Management System according to the requirements of the UNI EN ISO 14001 standard certified by an accredited third party;
- Integrate into the decision-making process; the expectations of UNI EN ISO 14001 standard and the International Finance Corporation (IFC), which represent the standards of social and environmental sustainability,
- Minimize the consumption of energy and raw materials by joining the Airport Carbon Accreditation certification program for reducing greenhouse gas (GHG) emissions;
- Optimize the management of the waste water treatment plant by encouraging the reuse of treated water for irrigation;
- Optimize waste management by promoting recovery and recycling rather than disposal and adopting policies for the reduction of disposable plastic;
- Raise awareness and involve all stakeholders for a responsible commitment to respect the environment in which we operate;
- Encourage collaborations with Partners who show respect for the environment;
- Define environmental objectives and goals integrated with company development programs and circulate them through the internal and external communication plan;
- Ensure the environmental policy and the related management system are understood, implemented and sustained at all levels of the organization and that the system is supported by periodic and systematic training and education activities;
- Divulge this document and make it available to interested parties.

The translation of these commitments into successful results will be the combination of the commitment of the Geasar Group, its Partners and all other interested parties.
